Write a program using function to calculate the simple interest. Suppose the customer is a senior citizen. He is being offered 12 percent rate of interest; for all other customers, the ROI is 10 percent.

Sample Input:

Enter the principal amount: 200000

Enter the no of years: 3

Is customer senior citizen (y/n): n

Sample Output:

Interest: 60000

1. Principal: 2000 , Years: 0
2. Principal: 20000 , Years: -2
3. Principal: -2000 , Years: 2
4. Principal: 2 , Years: 2000
5. Principal: 0 , Years: 5

Your Code

```
1 import java.util.*;
2 class main{
3     public static void main(String[] args){
4         Scanner sc = new Scanner(System.in);
5         int p= sc.nextInt();
6         int t = sc.nextInt();
7         //int n= sc.nextInt();
8         String c=sc.nextLine();
9         if(c=="n"){
10             System.out.print((p*12*t)/100);
11         }
12         else{
13             System.out.print((p*10*t)/100);
14         }
15     }
16 }
```

Output

60000

Find the factorial of n?

Sample Input:

N = 4

Sample Output:

4 Factorial = 24

1. N = 0
2. N = -5
3. N = 1
4. N = Q
5. N = 3A

Your Code

```
1 import java.util.*;
2 class main{
3     public static void main(String[] args){
4         Scanner sc=new Scanner(System.in);
5         int n= sc.nextInt();
6         int fact=1;
7         for(int i=1;i<=n;i++){
8             fact=fact*i;
9         }
10        System.out.println(fact);
11    }
12 }
13
14
15
```

Output

24

Write a program for matrix addition?

Sample Input:

Mat1 =

1 2

5 3

Mat2 =

2 3

4 1

Sample Output:

Mat Sum =

3 5

9 4

Your Code

```
1 import java.util.*;
2 class main{
3     public static void main(String[] args){
4
5         int a[][] = {{1,2},{5,3}};
6         int b[][] = {{2,3},{4,1}};
7         int sum[][] = {{0,0},{0,0}};
8
9         for (int i=0;i<2;i++){
10             for(int j=0;j<2;j++){
11                 sum[i][j]=a[i][j]+b[i][j];
12             }
13         }
14         for(int i=0;i<2;i++){
15             for(int j=0;j<2;j++){
16                 System.out.print(sum[i][j]+ " ");
17             }
18         }
19     }
20 }
```

Output

```
3 5
9 4
```
